for removing tan and freckles is unequaled.

It is necessary to shamnoo more frequently in the warmer weather because of excessive dust and the fact that the head nerspires more and is usually more exnosed to the weather. The easiest to use and quickest drying shampoo that we can recommend to our readers can be prepared very cheanly by dissolving a transpoonful of canthrox, obtained from your drurgist, in a cun of hot water. This rubbed into the scalp reporter a thick inther, seething and cooling in its detion, as well as very longed-sid to scalp and hair. After ringing, the scalp is fresh and clean, while the hair dries another and a left, the first and the scalp and responses that makes it seem very heavy.—Advi.
